

Greetings from Shri Narendra Modi, Prime Minister of India  
[conveyed during his remarks in "Mann ki Baat" on 26 April, 2020]

Friends, the holy month of Ramzan has also started. While celebrating Ramzan the previous time, no one would have thought that there would be so many difficulties during Ramzan this time. However, now that the whole world is in the midst of this crisis, we have an opportunity to make this Ramzan a symbol of restraint, harmony, sensitivity and spirit of service. This time, let us pray even more fervently that the world may be freed from the Coronavirus by the time of Eid, so that it can be celebrated enthusiastically and energetically like earlier times.
